ISC/Q0408: House Keeper - Mechanised Equipments

Brief Job Description

The individual in this performs housekeeping and maintains the cleanliness of different areas of steel plant i.e. control rooms, offices, blast furnace proper including cast house, stock house etc.

Personal Attributes

The person should be patient, organised, team-oriented and have the ability to work for long hours in adverse conditions. They must be able to plan and prioritise tasks effectively and have an eye for detail and quality.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [ISC/N0008: Use basic health and safety practices at the work place](#)
2. [ISC/N0009: Work effectively with others](#)
3. [ISC/N0427: Prepare the house keeping equipment](#)
4. [ISC/N0428: Perform housekeeping with mechanised equipment](#)
5. [ISC/N0429: Perform post-housekeeping operations](#)

Qualification Pack (QP) Parameters

Sector	Iron & Steel
Sub-Sector	Steel
Occupation	Iron Making
Country	India
NSQF Level	3
Aligned to NCO/ISCO/ISIC Code	NCO-2015/5151.0201
Minimum Educational Qualification & Experience	Able to read and write
Minimum Level of Education for Training in School	
Pre-Requisite License or Training	Valid Driving License mandatory
Minimum Job Entry Age	18 Years

ISC/N0008: Use basic health and safety practices at the work place

Description

This OS unit is about following safety and adopting sustainable practices for optimising use of resources.

Scope

The scope covers the following :

- Maintain safe and secure working environment
- Emergencies, rescue and first aid procedures
- Health and hygiene
- Housekeeping and waste management
- Material and energy conservation

Elements and Performance Criteria

Maintain safe and secure working environment

To be competent, the user/individual on the job must be able to:

- PC1. identify hazardous activities and the possible causes of risks or accidents in the workplace
- PC2. follow safe working practices while dealing with hazards to ensure safety of self and others
- PC3. use appropriate protective clothing/equipment for specific tasks and work
- PC4. follow appropriate safety practices while working in and around trenches, elevated places and confined areas
- PC5. lift heavy objects safely using correct procedures
- PC6. carry out routine check of the machine for identifying potential hazards
- PC7. report any identified breaches in health, safety and security policies and procedures to the designated person

Emergencies, rescue and first aid procedures

To be competent, the user/individual on the job must be able to:

- PC8. use appropriate type of fire extinguisher
- PC9. apply appropriate rescue techniques during fire hazard
- PC10. provide appropriate first aid procedure to victims wherever required eg.in case of bleeding, burns, choking, electric shock etc.
- PC11. follow emergency procedures such as raising alarm, safe evacuation etc.
- PC12. attend safety training and fire drills to respond promptly during an emergency

Health and hygiene

To be competent, the user/individual on the job must be able to:

- PC13. follow regular cleaning and disinfection practices at work place using appropriate techniques and materials

PC14. follow hand hygiene practices at work place using appropriate techniques and materials

PC15. report regarding the contagious illness of self or people in close contact

PC16. avoid contact with ill people and self-isolate in a similar situation

Housekeeping and waste management

To be competent, the user/individual on the job must be able to:

PC17. follow the fundamentals of 5S for housekeeping

PC18. ensure good housekeeping in order to prevent hazards and accidents

PC19. store the material, tools and equipment in the correct location and in good condition

PC20. segregate waste into different categories

PC21. identify recyclable, non-recyclable and hazardous waste

PC22. dispose non-recyclable, recyclable and reusable waste appropriately at identified location

Material and energy conservation

To be competent, the user/individual on the job must be able to:

PC23. identify ways to optimize usage of material in various tasks/activities/processes

PC24. check for spills/leakages in various tasks/activities/processes

PC25. plug spills/leakages and escalate to appropriate authority if unable to rectify

PC26. check if the equipment/machine is functioning normally before commencing work and rectify wherever required

PC27. ensure electrical equipment and appliances are properly connected and turned off when not in use

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. organisation procedures for health, safety and security, individual role and responsibilities in this context

KU2. the organisation's emergency procedures for different emergency situations and the importance of following the same

KU3. evacuation procedures for workers and visitors

KU4. how and when to report hazards

KU5. potential hazards, risks and threats based on the nature of work

KU6. preventative and remedial actions to be taken in case of exposure to toxic material

KU7. various types of fire extinguisher

KU8. various types of safety signs and their meaning

KU9. appropriate first aid treatment relevant to different condition e.g. bleeding, minor burns, eye injuries etc.

KU10. relevant standards, procedures and policies related to 5S followed in the company

KU11. the various materials used and their storage norms

KU12. efficient utilisation of material and water

- KU13. basics of electricity and prevalent energy efficient devices
- KU14. common practices of conserving electricity
- KU15. categorisation of waste into dry, wet, recyclable, non-recyclable and items of single-use plastics
- KU16. usage of different colors of dustbins
- KU17. waste management techniques

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1. read safety instructions/guidelines
- GS2. modify work practices to improve them
- GS3. ask for clarifications from superior about the job requirement
- GS4. work with supervisors/team members to carry out work related tasks
- GS5. complete tasks efficiently and accurately within stipulated time
- GS6. inform/report to concerned person in case of any problem
- GS7. make timely decisions for efficient utilization of resources
- GS8. write reports such as accident report, in at least English/regional language
- GS9. be punctual and utilize time efficiently

ISC/N0009: Work effectively with others

Description

This OS unit is about communicating with colleagues/superiors and others, either in own work group or in other work groups within organisation.

Scope

The scope covers the following :

- Communicate effectively with colleagues and others
- Interact with supervisor
- Follow appropriate behaviour at work place

Elements and Performance Criteria

Communicate effectively with colleagues and others

To be competent, the user/individual on the job must be able to:

- PC1. coordinate with colleagues to share work, as per the workload in order to achieve team goals
- PC2. maintain clear communication with colleagues and others, wherever needed, through all means i.e. face-to-face, telephonic or written
- PC3. adjust communication styles to reflect gender and persons with disability (PwD) sensitivity
- PC4. respect all colleagues and co-workers
- PC5. resolve conflicts by communicating with colleagues and other departments

Interact with supervisor

To be competent, the user/individual on the job must be able to:

- PC6. identify work requirements by receiving instructions from reporting supervisor
- PC7. escalate problems to supervisors that cannot be handled
- PC8. report the completed work
- PC9. interact with the reporting supervisor about any possible hazards and safety concerns

Follow appropriate behaviour at work place

To be competent, the user/individual on the job must be able to:

- PC10. extend help to people with Disability (PwD) at workplace, if required
- PC11. empathize with people with disability
- PC12. adopt a gender neutral behavior
- PC13. adopt responsible and disciplined behaviours at the workplace

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1. the importance of effective communication and establishing good working relationships with colleagues and supervisor
- KU2. different methods of communication as per the circumstances
- KU3. importance of teamwork in organization and individual success
- KU4. various components of effective communication
- KU5. barriers to effective communication
- KU6. common reasons for interpersonal conflict
- KU7. what constitutes disciplined behaviour for a working professional
- KU8. gender concepts, issues & legislation
- KU9. organisational policies and procedures related to gender equality
- KU10. challenges faced by PWD and the ways to help them overcome the same

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1. read instructions/guidelines/procedures
- GS2. listen effectively and orally communicate information
- GS3. ask for clarification and advice from the concerned person
- GS4. maintain positive and effective relationships with colleagues
- GS5. evaluate the possible solution(s) to the problem
- GS6. spot and communicate potential areas of disruptions in the work process and report the same
- GS7. complete written work with attention to detail
- GS8. check that the work meets customer requirements

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>Communicate effectively with colleagues and others</i>	13	20	-	9

ISC/N0427: Prepare the house keeping equipment

Description

This OS unit is about inspecting & preparing the house keeping equipment for cleaning activities that need to be carried out.

Scope

The scope covers the following :

- Identify work requirements
- Inspect and prepare the equipment for operation

Elements and Performance Criteria

Identify work requirements

To be competent, the user/individual on the job must be able to:

- PC1. identify the work requirements from the instructions received from supervisor
- PC2. plan as appropriate to carry out the housekeeping job as per schedule
- PC3. identify and arrange the cleaning material, tackles and accessories required for housekeeping and ensure availability at the work site

Inspect and prepare the equipment for operation

To be competent, the user/individual on the job must be able to:

- PC4. check the mechanised equipment to be used for the housekeeping/cleaning operation before starting the assigned job
- PC5. check the components for the mechanised equipment e.g. engine, controls, brake system, lighting, lubricants, vacuum system, water pressure etc. before starting the assigned job
- PC6. check necessary tackles to be used is in proper working condition
- PC7. stack the material (iron scraps, dusts, slags and debris) on the desired location as per company procedure
- PC8. prepare the working area for proper housekeeping to achieve the scheduled production target
- PC9. prepare the necessary equipment and tackles for starting the house keeping activities

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1. relevant housekeeping standards and procedures followed in the company
- KU2. how to read daily maintenance checklist and importance of the same
- KU3. risk and impact of not following defined procedures/work instructions
- KU4. different types of mechanised equipment for housekeeping e.g. Ride on sweeper, Flipper, Portable vacuum machine, Mopping machine (electrically/battery operated), mobile IVC (Industrial Vacuum Machine), Jetting machine etc.

- KU5. various components of housekeeping equipment and their functioning
- KU6. steering mechanisms and correct way of steering on slopes
- KU7. controls, levers and switches in order to operate the IVC, Jetting and ride on sweeper properly
- KU8. normal running characteristics of each equipment
- KU9. optimal working condition of components and other attachments
- KU10. optimal engine oil pressure, radiator coolant temperature and indicator
- KU11. how to inspect mechanised equipment and its components to identify damage, defects, cracks or leaks before operation

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1. read work instructions, equipment manuals and process documents
- GS2. communicate the process requirements to the supervisor and co-workers
- GS3. attentively listen and comprehend the information given by the supervisor/team members
- GS4. write work related information in English/regional language
- GS5. recognise a workplace problem and take suitable action
- GS6. analyse and apply the information gathered from observation, experience, reasoning or communication to act efficiently
- GS7. plan and organise work according to the work requirements
- GS8. complete the assigned tasks with minimum supervision
- GS9. report to the supervisor or deal with a colleague individually, depending on the type of concern

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>Identify work requirements</i>	7	7	-	5
PC1. identify the work requirements from the instructions received from supervisor	1	2	-	1

ISC/N0428: Perform housekeeping with mechanised equipment

Description

This OS unit is about performing housekeeping operation carried out by using mechanised equipment within given time schedule.

Scope

The scope covers the following :

- Operate the mechanised equipment for housekeeping activities

Elements and Performance Criteria

Operate the mechanised equipment for housekeeping activities

To be competent, the user/individual on the job must be able to:

- PC1. interpret the previous shift log book for starting the housekeeping activities
- PC2. maintain sequence of housekeeping/cleaning as per plan
- PC3. drive the mechanised equipment following all safety norms
- PC4. perform cleaning of various areas of plant by operating the equipment by following specified procedure
- PC5. use buzzer and signalling lights of the mechanised equipment while in operation as safety measure
- PC6. follow safety practices such as wear safety belt & helmet, do not use phones etc. while driving
- PC7. ensure operating speed are within limits as specified by the manufacturer

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1. relevant standards and procedures followed in the company
- KU2. different types of mechanised equipment for housekeeping e.g. Ride on sweeper, Flipper, Portable vacuum machine, Mopping machine (electrically/battery operated), mobile IVC (Industrial Vacuum Machine), Jetting machine etc.
- KU3. various components of housekeeping equipment and their functioning
- KU4. steering mechanisms and correct way of steering on slopes
- KU5. controls, levers and switches in order to operate the IVC, Jetting and ride on sweeper properly
- KU6. normal running characteristics of each equipment
- KU7. optimal engine oil pressure, radiator coolant temperature and indicator
- KU8. SOP recommended by the manufacturer for using vehicle (Ride on sweeper, Flipper, Portable vacuum machine, Mopping machine (electrically/battery operated), mobile IVC, Jetting machine etc.)
- KU9. how to clean the area by using mobile equipment
- KU10. operation and safety aspects of the equipment

KU11. possible causes of common problems during operation of mechanised equipment and remedies

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1. read work instructions, equipment manuals and process documents
- GS2. communicate the process requirements to the supervisor and co-workers
- GS3. attentively listen and comprehend the information given by the supervisor/team members
- GS4. write work related information in English/regional language
- GS5. recognise a workplace problem and take suitable action
- GS6. analyse and apply the information gathered from observation, experience, reasoning or communication to act efficiently

ISC/N0429: Perform post-housekeeping operations

Description

This OS unit is about performing post-housekeeping operations such as waste disposal, equipment maintenance etc.

Scope

The scope covers the following :

- Waste disposal
- Perform post-housekeeping activities
- Perform maintenance of equipment

Elements and Performance Criteria

Waste disposal

To be competent, the user/individual on the job must be able to:

- PC1. segregate the material (iron scrap, slag, dust and debris) for proper disposal
- PC2. load the scrap and debris in the tripper/wagon etc.
- PC3. dispose the scrap and debris in accordance with the company's policies and environmental regulations

Perform post-housekeeping activities

To be competent, the user/individual on the job must be able to:

- PC4. clean and store all the tools and equipment after completion of work
- PC5. remove the mechanised equipment, cleaning material and tackles being from the work site before handing over
- PC6. inform supervisor and concerned person regarding the job completion
- PC7. record the activities in the log book as per company procedure

Perform maintenance of equipment

To be competent, the user/individual on the job must be able to:

- PC8. perform basic health check-up of mechanised equipment as specified in the maintenance checklist
- PC9. repair or replace the spare parts and consumables of the equipment as per the schedule
- PC10. check the mechanised equipment and its components for any defects, damage, wear and tear, malfunction etc.
- PC11. assess when the problem is beyond his competence and report the problem to supervisor or maintenance team
- PC12. record all repairs carried out and maintenance activities done as per SOP

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1. relevant standards and procedures followed in the company
- KU2. Various methods of disposing the scrap and debris
- KU3. basic technology used in and functioning of various systems and components of the equipment
- KU4. associated equipment, accessories and components of equipment
- KU5. normal running characteristics of each equipment
- KU6. how to read maintenance schedules and checklists recommended by the manufacturer
- KU7. Standard Operating Procedures (SOP) recommended by OEM for using tools and equipment required
- KU8. how to collect and store cleaning material, tools, etc. as per organizational procedures
- KU9. use of appropriate PPE, material handling equipment and tools for completing the maintenance tasks
- KU10. corrective actions for common faults and failures in mechanized equipment
- KU11. documentation required regarding repair, maintenance and service performed

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1. read work instructions, equipment manuals and process documents
- GS2. communicate the process requirements to the supervisor and co-workers
- GS3. attentively listen and comprehend the information given by the supervisor/team members
- GS4. write work related information in English/regional language
- GS5. recognise a workplace problem and take suitable action
- GS6. analyse and apply the information gathered from observation, experience, reasoning or communication to act efficiently
- GS7. plan and organise work according to the work requirements

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
5. In case of successfully passing only certain number of NOSs, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack.
6. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
ISC/N0008. Use basic health and safety practices at the work place	30	50	0	20	100	15
ISC/N0009. Work effectively with others	30	50	0	20	100	15
ISC/N0427. Prepare the house keeping equipment	30	50	0	20	100	20

QP	Qualifications Pack
TVET	Technical and Vocational Education and Training

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar / related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
